President's Message

A pride of place for every RSET institution

Dear Reader,

It is in times of crises that the true mettle of human beings is tested. The Corona virus has had the world in its grips since the beginning of this year and it does not show any signs of waning. In this face of this adversity, I want to express my admiration at the manner in which all the institutes of RSET have rallied together to ensure a seamless learning experience for its students. It is this grit and determination that has taken the RSET family to great heights of achievement.

'We cannot always build a future for our youth, but we can always build our youth for the future'. These words by Franklin D. Roosevelt perfectly describe our aim at Rajasthan Sammelan Education Trust for the journey of educational endeavours. I am proud of the milestones achieved by the institutions run by our Trust and look at the future with optimism. Our endeavor is to make all our institutions as the highest seats of learning so that our students can compete with present global challenges.

It is our fervent hope that the years our students spend in RSET's schools and colleges enable them to equip with leadership skills, the knowledge that they gain, the fine qualities that they imbibe will inspire them to apply these skills for the betterment of the social political and economic life of our nations and that will be their major contribution to our nation. We believe in imparting holistic education encompassing academics, co-curricular activities, sports education and life skills learning. Hon. Secretary's Message

At the heart of RSET is social responsibility

Dear Reader,

The concept of education all over the world is undergoing a sea change day by day. It is becoming more and more interactive. The reach of the web and the efforts of globalization have further transformed learning process in educational institutions. This also needs suitable technical support. I am happy to state that we at Rajasthan Sammelan Education Trust have always been sensitive to these changes in the education system. We have been providing all possible technological support in the teaching-learning process in all the institutions of the Trust.

We had started Kunjbihari S. Goyal Online Academy (GOLD Academy) in the year 2015. Ever since its inception, GOLD Academy is giving full support to B.Com students of our colleges through its e-learning platform. GOLD Team has also supported this year students of Durgadevi Saraf Junior College on the topic 'how to write right answer' and manage time during examination. GOLD Team has also addressed students from Class V to X of Ramniwas Bajaj English High School with online contents, replied to the students' queries and also received good feedbacks.

Past few months have been full of activities in our campus. All the schools of RSET along with Draupadidevi Sanwalmal Women's Hostel celebrated Republic Day in RSET campus with **Shri Nandkishore Gupta**, Member, Managing Committee as the Chief Guest. He also hoisted the National flag which was followed by cultural items presented by the students on patriotic theme. Ghanshyamdas Saraf College and Durgadevi Saraf Junior College jointly organized their annual cultural fest '**Mauj**' for two days with more than 1350 students participating from various colleges across Mumbai in 34 events. Ladhidevi Ramdhar Maheshwari Night College of Commerce also organized the annual cultural fest '**Pankh - A Desire to Fly**' in which 692 students from various colleges of Mumbai participated in 55 events.

Along with various academic, cultural and literary activities, students of our institutions participated in many outreach programmes. Students of Durgadevi Saraf Institute of Management Studies organized a cricket march '**Cricket for Social Responsibility**' wherein a cricket tournament was played by many teams from corporates. The funds raised as registration fees were given to two NGOs for arranging Mid-day meal for school children. A **Blood Donation Camp** was organized by NSS and DLLE Units of Ladhidevi Ramdhar Maheshwari Night College of Commerce in association with Rotary Club of Mumbai Western Elite, in which 56 bottles of blood were collected and donated to SRCC Children's Hospital, Haji Ali, Mahalaxmi, Mumbai. A team of 56 members of DLLE Unit of Ghanshyamdas Saraf College in association with IDF visited different BMC Schools at Malwani (Malad West) and Andheri and undertook the classes of their students under '**Student Leadership Project**'. Children from schools too participated in various outreach programmes. Students of Mainadevi Bajaj International School supported the work of '**Mumbai Roti Bank**', a non-profit organization which works for eradication of hunger. Students from Grade 1 to Grade 12, donated sugar, rice and pulses to be distributed to the poor in Mumbai.

I am pleased to inform that Ramdhar Maheshwari Career Counseling Centre has been reaching out to students to equip them with skills that will help them to excel emotionally and academically. The activities of RMCC included career assessments, individual and group counseling,

Kailash Kejriwal, Hon. Secretary, RSET

organizing seminars for parents, career awareness workshop for in-house students as well as for students of other schools. Pravinchandra D. Shah Sports Academy ground is regularly utilized by in-house students and expert coaches are appointed to train them on various games. The U-14 boys' football team of PDSA has made us proud by winning first place in 'Apollo Tyres Football Tournament' in which more than 30 teams participated. Little children from Ramniwas Bajaj English High School from Senior KG onwards excelled in Inter-school Competition in swimming and Martial Arts. Students of Durgadevi Saraf Junior College excelled in Kabaddi, Cricket, Basketball and other games.

I am very happy to state that with handsome donations received from our donor Shri Harish P. Shah, we are in the process of starting **Nalini Shah Music Academy** from the academic 2020-2021. Draupadidevi Sanwalmal Women's Hostel and Jankidevi Bilasrai Bubna Boys' Hostel are running successfully and are full to their intake capacity.

Due to recent lockdown all over the country as per instructions of Government for COVID-19 Pandemic, all our institutions were closed from 23rd March, 2020. However, our faculty accepted the challenge and completed their syllabus by taking online classes with due support received from IT Department and GOLD Academy.

Delivering quality education requires dedicated persons who enter the field of education with a passion for it and who are on an increasing quest for improvement. We are fortunate that we have well qualified Heads of Institutions and Staff in critical roles who are eager to transfer the educational campus of RSET into a world class centre of education.

CEO'S Message

Captain (IN) Anant Yadnik (Retd.), CEO, RSET

DUE TO COVID - 19 EVERYTHING WILL CHANGE, NEW NORMALS WILL BE ESTABLISHED

Dear Reader,

The first quarter of the New Year 2020 began with full josh and energy and thus all our schools, colleges and institutions have conducted large number of activities like visits, outreach programmes, exhibitions, PTA Meetings, skilled based learning, felicitations of high achievers in sports and academics and college day events. Further many mega events like field trips, seminars, dance, drama and music competitions were also held at our campus. Some of our institutions held National and International Conferences, degree distribution ceremony of PG institutes, board of studies meetings, rural Immersion for PGDM Students, guest lecture series and workshops too. Our colleges have actively participated in all the NSS activities like blood donation camps and many other social activities. It was a proudest moment for us that four of our NCC cadets attended Republic Day Parade at New Delhi. Senior Under Officer Rinky Singh had a singular honor of being a pilot for our Honorable Prime Minister Shri Narendra Modi during the said parade. At home, the Republic Day Celebrations were also conducted in RS Campus on 26 January 2020 and our students have performed whole heartedly. The Performance of students was so mesmerizing that it had left each and every audience spell bound. The day was graced by all the management members and trustees.

The annual medical checkup for students of Sr KG to Std X was conducted by doctors of Ayaksha for all schools and their the detailed report was submitted. The parents of these students were very happy to note our care and concern regarding the health of their wards.

Department of lifelong learning and extension- DLLE in association with IDF an NGO has been carrying out extensive work at Saraf College. During this quarter they have carried out CPR, PALS, organ donation drive and many other social activities.

Our Counselors from RMCC team has been reaching out to individuals, students and the teaching programme in municipal schools, have organized youth awareness like BLS, parents to assist them during this phase of anxiety, emotional distress, and career uncertainties and offering them support through online counseling.

During the mid-March as we were about to conduct many other activities and most importantly the examinations, a devastating news of COVID 19 pandemic, a fierce virus has shaken the whole world and the entire country went in to complete Lock Down. We too were badly affected. However, new problems comes up with new challenges and I am proud to make a mention that in spite of this grave epidemic our staff members worked in unison by providing knowledge online or gaining knowledge to improve themselves. We have taken this challenge upfront and quickly geared up to perform to near normal levels in all spheres of the trust's educational activities. We have empowered our teaching staff and non-teaching staff with all the facilities for their work from home schedule like providing the training for conduct all the teaching jobs through Google classroom and Zoom applications. Even the non-teaching staff was trained to do their jobs online. During the lock down period, we have provided them with laptops, desktops, dongles, and the audio and video conferencing facility. We motivated the staff to come to the office during lockdown period by providing the transport, to do their urgent and important jobs at office. We managed to get the vehicle pass and able to provide aforesaid essential goods to their residences in and around Mumbai to facilitate them to Work From Home. The first thing we ensured under such difficult situation is to ensure that the essential services like security, housekeeping and technical services are put in place. Security staff ensured the safety and security of the Gates and buildings 24X7. House Keeping staff took care of the cleanliness of the campus and kept it neat and tidy. Technical services have maintained all the essential facilities like supply of water and electricity throughout.

It is pertinent to mention that despite all the Indian students of both the hostels have left safely for their homes, 40 foreign students (20 Girls and 20 Boys) from different countries got stuck here and we are looking after them by providing the shelter, food and all the state of art facilities like AC rooms, gym equipment, washing machines etc. Needless to mention that our hostel staff including both the rectors are doing a great job in smooth running of the hostels under such difficult conditions.

In the end, we all at RSET have learnt many lessons. New normal, like social distancing, not shaking hands with each other, wearing masks, washing hands frequently, extensive use of sanitization have been set and will become part of everyone's life and going to stay with us for a longer period.

“Strive for Progress, Not perfection.”

Message From Director of Schools

An opportunity called Covid19

We can look at the present crisis as an ominous cloud hanging over the entire globe, threatening the very social, cultural, moral and economic fabric that binds us together or we can look at it as a challenge that demands a completely fresh outlook that is asking for a paradigm shift in our way of thinking.

It is the rapid march of technology over the last three decades and the opening up of borders to trade and commerce that flattened the earth in more than one sense and allowed ideas, finance, people and politics to move with greater ease, uniting the world in one headlong rush towards economic prosperity. And it is that very march of technology and flattening of the earth that allowed the untrammelled march of our unfriendly, all-encompassing and uninvited guest – the Corona Virus.

What technology did, technology has to undo. One thing is quite clear that post-Covid19 the nature of human contact will undergo a rapid transformation. Coronamaste is going to replace the western handshake and all unessential travel and meetings are going to be canned. Business class is going to find few takers because classy business is going to be done from a classroom environment.

In the classroom itself the nature of learning is going to change. This has been amply demonstrated by the online learning mode that many schools across the world seem to have gone into. In India, led by the prestigious Mainadevi Bajaj International School, schools of RSET have taken the lead in seizing this opportunity and going digital. MBIS was among the first schools in India to launch online learning even before the national lockdown had been declared.

To enable this process all the teachers were given an intense two-day training by an external expert as well as by our in house team of IT professionals. The elaborate process of transforming our learning into a Google platform base needed the IT department to create a new Gmail identity for each and every student in the school. Before the school was shut down for students on the 14th of March, every student was trained in our IT lab and our teachers experimented with online learning as they sat in their classrooms. Notifications were sent to parents detailing the technical requirements for online learning and individual issues of login and bandwidth were addressed by our IT staff.

At MBIS the online classes went live on the 16th of March for students of Grades 3 to 12. The online classes are conducted between 8 am and 12.30 pm for students up to Grade 9 and till 2.30 pm for IB Diploma students. The younger children who would have found it challenging to attend an online class, were supported by their teachers with work that was uploaded each day. It felt as if MBIS had never shut down. Each and every response from our parents, and there have been innumerable, has been positive and this has encouraged our teachers to explore new

Nitin Padte, Director of Schools, RSET

avenues in online teaching. Parents are grateful that their children's education has continued unhindered. Teachers discovered that an online class may last for 40 minutes but the preceding preparation and the follow up in the form of assignments took up much more time and energy than the class itself. Apart from this one-on-one online classes are conducted for slow learners every day in the afternoon.

Students have been equally enthusiastic about this new experience and look forward to each and every lesson. One of the unheralded outcomes of this online learning experience is that it has ensured a 100 per cent attendance. This is the case not only with teachers but also with students since now the onus of making sure that the student is attending classes at home is on the parents and they have been very diligent about it.

MBIS is not the exception to this online learning experience as many other institutes of RSET have also begun this mode of education and our ICSE school, RBHS, is in the process of launching online classes. To return to the theme with which this message was introduced, it is becoming rapidly apparent that social distancing and online classrooms are here to stay. As a matter of fact when educational institutions resume full time work once the Covid19 threat has receded, we will still not be able to gather in large groups in single classrooms and a mode of learning that combines face-to-face learning with online learning is likely to become the norm for the future.

A new future is at hand and an opportunity awaits us. We at RSET are well prepared to seize it.

Online learning at RSET - a rapid response to the crisis

January 2020 was welcomed with great enthusiasm in RSET campus. Academic activities started as per proper planning done earlier that included prelim examinations for final year students followed by practical examinations of the junior college. Regular teaching for students of schools and institutions of higher education continued. Simultaneously many noteworthy extra-curricular events were also organized that included annual cultural fest 'Maui' jointly organized by Ghanshyamdas Saraf College and Durgadevi Saraf Junior College and 'Pankh - A Desire to Fly' by Ramdhar Maheshwari Night College of Commerce. The cultural fests of both the colleges received huge response from college students across Mumbai. Schools of RSET did not lag behind. They jointly celebrated Republic Day along with Draupadidevi Sanwalmal Women's Hostel in a grand manner. Shri Nandkishore Gupta, an active member of Managing Committee graced the occasion as the Chief Guest and hoisted the national flag which was followed by a cultural programme with patriotic theme.

In the month of February, examination of SSC, ICSE & IGCSE commenced in our schools affiliated to SSC, ICSE & IGCSE Boards. During this period, Durgadevi Saraf Junior College successfully conducted HSC examination. On 1st February 2020, Durgadevi Saraf Institute of Management Studies conducted Degree Distribution ceremony for MMS & Part time Masters (MMM, MFM & MHRDM). Shri D. Sivanandhan, former Police Commissioner, Mumbai, graced the occasion as the Chief Guest. Media ICE Age 2020 (Information, Communication & Entertainment), the official Annual Fest of Deviprasad Goenka Management College of Media Studies was held in a grand manner on 17th & 18th February, 2020. Mainadevi Bajaj International School conducted a unique interschool art fest with the theme of 'UN Sustainable Development' in which students painted their ideas on a globe.

At the national level, the month of February was marked by the State visit of U.S. President Donald Trump in India along with his family. During his visit to India, India & USA signed many agreements in health

Dr. Sunanda Kar, Editor

and oil sector.

However in the month of March, we received a rude shock due to COVID-19 Pandemic that affected nearly 200 countries & sickened millions of people with lakhs being dead. As per the directive of the Government, all institutions were closed in our country from the middle of March. The last paper of Geography for SSC examination of State Board was cancelled and the State Education Board decided that the students will be marked for the subject based on the average of the total marks received. All University examinations, examinations for entrance to professional courses were postponed indefinitely. There was complete lockdown of all activities and people were advised to stay home to stay safe and alive.

Learning from home has never been as widespread as it is now. Teachers were given quick training for teaching in google classroom & teaching through zoom app. In our campus too, both in schools and institutions of higher education online classes were immediately started with the help of Kunjibihari S. Goyal Online Academy (GOLD Academy) & IT Department to complete the syllabus. The administrative staff were also given laptops so that they can work from home. However, we all know that online education system is dependent on the availability and affordability of high tech instruments like laptops, smart phones, uninterrupted power supply and internet connectivity that are out of reach in small towns and rural areas. Besides students coming from economically backward families will not be able to afford online education. Parents of such category have lost their source of income due to lockdown and some migrant families have left for their home towns. In higher education, there are talks going on to promote all students including those in final year & Law & Architecture students. However, Bar Council of India & Council of Architecture have not accepted this proposal and are not ready to register such students & allow to practice in the country.

COVID-19 Pandemic has given a jolt to economy of our country as well as nations all over the world. Many employees from small business owners have lost job due to inability of their employer to pay them their salary. In educational institutions too managements are facing cash crunch as fees are not received for the new academic year. Many parents are requesting to pay fees of their wards in installments due to paucity of funds.

Indeed an unprecedented condition has emerged in front of us & we are faced with many challenges in the near future in every walk of life. At this time, we have to reinvent new methods and that in the new 'Mantra' in the present situation in education, economy and also in our social behavior that includes greeting people by our traditional way of 'Namaste' rather than by handshake for some time to maintain social distancing.

Podar
Study Centre

Dear Reader,

Nearly six decades ago, my late father Shri Vishwanathji Podar had felt the necessity of girls' education and had started Sarvodaya Balika Vidyalaya School (now known as Kudilal Govindram Seksaria Sarvodaya School). At present, our Trust is providing education from Pre-school to Post Graduation in the fields of Commerce, Management and Media Studies. Nearly more than 16,000 students are receiving education in the institutions of Rajasthani Sammelan Education Trust. It is heartening to note that RSCA Study Centre and ICAI Extension Counter is running smoothly and successfully in RSET Campus. The Study Centre is open from 8 a.m. to 9 p.m. for the convenience of students pursuing the professional course of Chartered Accountancy in a peaceful environment. Since CA & IPCC exams are generally held in the month of May, in the past few months, there had been a great demand from the students for the Study Centre. Since morning students occupied the Study Centre so that they could peacefully concentrate on their studies for longer hours. The Study Centre remained open till 21st March, 2020. After that, complete lockdown was announced by the Government from 23rd March, 2020 due to COVID-19 Pandemic. CA & IPCC exams scheduled in May were also postponed due to nationwide lockdown. I am very happy to learn that all schools of RSET jointly celebrated Republic Day in the campus on 26th January, 2020 with Shri Nandkishore Gupta, Member, Managing Committee, RSET as the Chief Guest. Students of Draupadidevi Sanwalmal Women's Hostel also participated in the Republic Day celebration. Ghanshyamdas Saraf College and Ladhidevi Ramdhar Maheshwari Night College of Commerce successfully organized their annual intercollegiate fests 'Mauj' & 'Pankh'. Both the cultural fests received overwhelming response from colleges all over Mumbai.

I take this opportunity to convey my best wishes to all the institutions for an excellent and successful academic year of 2020-2021.

Vijay Pal Singh
Health Centre

Dear Reader,

It is heartening to note that Vijay Pal Singh Health Centre is running successfully in RSET campus and is able to address health problems of many students. Besides regular medical check-ups, schools can diagnose potentially serious ailments early before they become serious medical problems. Now a days in a city like Mumbai, most of the families are dual career families where both the parents go for work. Therefore often early symptoms of illness of the children go unnoticed due to the busy lifestyle of their parents.

I am pleased to know that Ayaksha, the agency working on behalf of the Trust is giving full support to take care of the physical well-being of the school children through regular health check-ups. General physicians, dentists, ophthalmologists, dermatologists and ENT specialists check thoroughly the students of the school. Along with health check-ups, workshops were also held on good touch and bad touch for smaller children. Health check by Ayaksha was also done of inmates of Draupadidevi Sanwarmal Women's Hostel and Jankidevi Bilasrai Bubna Boys' Hostel by doctors from Ayaksha.

It is indeed heartening to note that Jankidevi Bilasrai Bubna Boys' Hostel of Rajasthani Sammelan Education Trust is running very smoothly and is full to its capacity of 152 students that include 132 Indian students and 20 foreign students. Draupadidevi Sanwarmal Women's Hostel is also running successfully and students staying in both the hostels are provided all necessary facilities as well as security so that the students can stay peacefully in the hostel and complete their courses of study.

I take this opportunity to congratulate the President and his team for taking many new initiatives in the field of education. I also compliment the editorial team to bring out this quarterly bulletin in a systematic & attractive manner.

Ramnarayan
Saraf Educational
Outlet

Dear Reader,

I am pleased to note that Ramnarayan Saraf Educational Outlet is running successfully in RSET campus and is catering satisfactorily to the stationery requirement of all the students as well as institutions of the Trust. Large number of students regularly visit the educational outlet not only for stationery items but also for xeroxing, scanning and for other items required to prepare their projects.

The educational outlet has proved to be very helpful to all the institutions as the Purchase Department of the Trust has fixed price of each stationery item required by the institutions and the ordering of items is also managed in a systematic way through IT Department.

It is indeed a matter of great pride that all the institutions run by our Trust are moving towards further excellence day by day for their high academic standards. Durgadevi Saraf Institute of Management Studies has recently renewed certification for ISO 9001: 2015 in January, 2020. DSIMS has also been ranked 7th among top private B-Schools in Mumbai, 31st among top private B-Schools in India & 45th among top B-schools in India as per Times B-School Survey 2020. Deviprasad Goenka Management College of Media Studies has been ranked second among the 'Top Emerging B-Schools of India' as per Times B-School Survey 2020.

It is interesting to note that students of schools and colleges organized many outreach programmes for the under privileged people. During recent lockdown for COVID-19 Pandemic, teachers of our schools and institutes of higher education took the challenge to teach students through online classes and completed their syllabus.

I take this opportunity to congratulate Shri Ashok M. Saraf and his team for such phenomenal success. I also appreciate the efforts of the Editorial team for bringing out this informative quarterly bulletin regularly.

This involves not only teaching the theory but also conducting of practical's in a well-equipped laboratory. I am pleased to note that Suwadevi Doongermal Patodia Chemistry Laboratory of Mainadevi Bajaj International School located on the 9th floor of the school has been fully utilized by the students of MBIS for their Chemistry Practical's, practical examinations and also for competitive examinations like Science Olympiads. Shri. Sivanandhan shared some pearls of wisdom with the students. He stated that this is the moment of great joy and satisfaction in their life as their academic efforts have come to fruition. It is a result of their two years hard work, dedicated efforts of the teachers and support and sacrifice of their parents. He highlighted that the journey doesn't end here; in fact, it is the beginning of a new journey, from a student to an employee. He advised that corporate world is quite harsh and competitive. The fittest will survive in that competition. Shri. Hence stating the fact that learning should never stop and that, the students have to devote a lot of time and effort towards self-development. He also stated that the speed of change and technologically driven disruptions has created lot of uncertainties, complexities, ambiguities and volatility in business environment. Shri. Sivanandhan also spoke about the role of students towards the country they live in. He stated that the students have to develop high aspirations in matters of public good. Sivanandhan stated the economy is going through a lot of challenges. He said that it is the external environment which is undergoing a transformation in this country and abroad. It is

marked by challenges such as

- Coping with increasing technological complexity
- Responding to an ever faster speed of innovation resulting in business disruptions
- Meeting the rising quality standards
- Satisfying more demanding customers
- Conforming to certain codes of conduct demanded by the society at large

According to Shri. Sivanandhan these are some of the challenges that students will have to overcome during their career and they should think in the lines of facing and winning over these challenges in a positive way and not considering the same as a setback. I came to Mumbai in the year 1975 and very soon I became associated with Rajasthani Sammelan Education Trust as Member. My elder brother Late Shri Prahladrailji Saraf was already a member of the Managing Committee of the Trust and was holding the position of the Treasurer. He inspired me to join the Trust and take interest in the educational and social activities of the Trust. My message to the future generation of leaders of Rajasthani Sammelan Education Trust is that they should always encourage and support all the institutions for reaching to excellence. With Art Fest Malad,

MBIS has another feather in its cap

"Sustainable development requires human ingenuity.
People are the most important resource."

- Dan Shechtman

Mr. Aslam Shaikh- A punctilious observer

The 1st edition of 'The Arts Fest Malad' was hosted by Mainadevi Bajaj International School on 15th and 16th February 2020 at the PDSA ground. This year our theme revolved around UN Sustainable Development Goals. The best international school in the zone had put up the best art show in the area and residents of western suburbs flocked to the show in their hundreds.

The Sustainable Development Goals (SDGs) are a collection of 17 global goals designed to be a "blueprint to achieve a better and more sustainable future for all". The creativity, knowhow, technology and financial resources from all of society is necessary to achieve the Sustainable Development Goals in every context.

A thought is a seed that has the propensity to create something. So, when the (Thought) seed is sown...the mind starts taking the next action. And therefore, a lot of thought process and planning had gone to make Malad a destination to showcase creativity and nurture talent in our students and the students in our neighbourhood. And it is this action that had culminated into 'The Arts Fest Malad' hosted by MBIS.

'The Arts Fest Malad' was inaugurated by Mr. Aslam Shaikh - cabinet minister and Malad West Assembly Constituency representative. Mr. Varun Badola, Bollywood actor and the two respected judges from Sanskriti Arts, Mrs. And Mr. Prabhakar were the guests of honour. Shri Ashokji Saraf – President of Rajasthani Sammelan, Honourable Secretary of RSET Shri Kailashji Kejriwal. Honourable Shri Sunilji Kabra – Joint Secretary of RSET, Respected Shri Nitin Padte – Principal of MBIS, Advisor Ms. Farzana, Honourable Trustees – Ms. Archita Rajpuria and Ms. Nishita Goenka, all the Trustees and the Management Representatives, RSET community and our dear students were present during the inaugural.

MBIS has created an environment where creativity is generated. In this day and age, art plays an important role in moulding the minds of children to develop a positive nature and appreciate natural beauty. The Art teachers have tried to ignite the passion to pursue the visual and performing arts through sustained motivation and regular encouragement.

The highlight of the Arts Fest was the Globe Painting Competition. Since MBIS was hosting the fest, ten globes were sponsored by the host school. The globes were sent to nine competing schools: Witty International School, D. G. Khetan International School, Billabong High-Malad, Children's Academy, S. H. Agarwal International School, D.Y. Patil International School, Fazlani International School, Bombay Cambridge-Andheri, JBCN-Oshiwara, apart from MBIS. These schools that had participated in 'The Globe Painting Competition' had to depict the UN Sustainable Development Goals. The globes were designed so artistically by the participating schools, that one would have no

other choice, but to agree with us that every school was a winner.

Best Out of Waste was another competition that was held where students from four schools had participated. The students have spread the message that they will be a part of the solution and not part of the pollution...and how well said!

A burst of colour, music, urban dance performances, workshops on calligraphy, adagio, photography, pencil art, mandala, caricature, mosaic, warli painting etc. and stalls like the art and craft stall, painting gallery, water colour stall, the cherished memory lane stall, the DIY stall, the yummy chocolate and food stalls, the Bake sale stall by the CAS students, made the audience who walked on the PDSA ground and around it, go into a world that they had never experienced before. The students from different schools who took part in the workshops and competitions thoroughly enjoyed them apart from taking home unforgettable reminiscences of the Arts Fest.

To us, at MBIS we believe in the holistic development of all our students and so visual arts and performing arts is as important as other academic subjects. The entire experience was about the students. Students have been our key contributors towards this fest. We wish that the entire student community become champions and take this mission of the UN forward in their own little ways. A week prior to the festival the whole school became engaged in creative activity and it totally changed the atmosphere on the school's campus.

The Fest ended with the prize distribution ceremony. The CEO for the Indian Development Foundation Mr. Narayan Iyer and Ms Earth

Honouring our Chief Guest with a token of our appreciation

Sweta Choudhary did the honours and gave away the prizes. The winners of the globe painting competition were S. H. Agarwal International School in the first place followed by D.G. Khetan International School and D.Y. Patil International School. The prize for best out of waste was bagged by Fazlani International School.

Society can only be complete when there is a balance between mechanical human resources and creatively inclined human resources. A healthy society not only requires a good number of technocrats, medical professionals and machines but also artists, writers and people from the performing arts to emerge as a complete, rich and a healthy society.

The success of the fest without a doubt goes hands down to the entire team of MBIS; teaching and non-teaching staff. The tireless effort put in by the teachers was well appreciated by the management. The flash mob dancing by the secondary students really went down well with the audience.

Because festivals provide a platform to engage with large and diverse audiences we are looking forward and hoping that 'The Arts Fest Malad' will be one of the most significant and most awaited art festivals of the suburbs, witnessing a throng of visitors, every year.

DGMC MEDIA I.C.E. AGE 2020 (MIA) Media Festival Redefined

Rajasthani Sammelen Education Trust's the school of ideas and innovation, Devi Prasad Goenka Management College of Media Studies (DGMC) set the stage to present its first edition of two-day media summit-like fest Media ICE Age (MIA), where 'I' stands for Information, 'C' for Communication and 'E' for Entertainment, amidst a lot of splendour on 17th and 18th February 2020.

DGMC's pedagogy is fourfold: theory, case studies, research and, practical applications. To stick to the basic philosophy of the institution, DGMC designs a unique festival. The first of its kind, the Media ICE Age Festival is a culmination of conclaves, panels, talks, cinema, photography, music, art, theatre, and literature that had put to test the intellectual, oratory, artistic and creative skills of the aspiring media graduates across the city. It was a platform for talent to compete among college fraternities, while basks in the cultural heritage, spirits and the enigma in this year's edition.

MIA is a festival, a movement, a belief, a thought, which leads us away and explore beyond the everyday nuances and mundane routines. In other words, it's a celebration of everything that is not conformist. It successfully redefines the idea of Media festivals in college

circuits in the city. The festival is curated in an unconventional way with unconventional elements in it. The events were an amalgamation of eminent C-level speakers and workshops on industry relevant topics. The speaker sessions and workshops were organized based on the flow of the theme. The platforms in this festival were a ground where the spotlight was on everybody from the craftsman, entertainer to the noiseless spectator of the diversion. It was a celebration of all facets of media from Cinema, to News, to entertainment to Culture to Literature, to Music to Theater, and the list goes on.

The inaugural edition of MIA proved to be a pioneering initiative that saw Corporate India participation in terms of sponsorship, co-curation of agenda and spokesperson/s involvement as guest speakers. Giant media conglomerate like Viacom 18, was the title sponsor while eminent group like Mahindra and Mahindra co-powered the festival. The other corporates on board were India Film Project as the festival partner, exclusive ticketing partner Paytm Insider, Radio Partner 92.7 Big FM, Mid town rotary Club, Ultra videos and many more.

The festival started with the invocation of the almighty. It drew 30 college teams to partake in the myriad of exhilarating events, panels, conclaves, and workshops that were lined up.

In a talk titled 'Hacked', Cyber security, Cybercrime and Fraud Investigation specialist Captain Pravin Rege kept the students engaged on how to secure their information and the changing laws on cyber security in India. The two-day festival also included those who inspired change in an event called, Changemakers

where Laxman Gole, described as the real-life Munna bhai, with his propagation of Gandhian ideals amongst jail inmates, graced the occasion.

A panel discussion with filmmaker and director Swapna Waghmare Joshi, critic Padma Shri Bhawana Somaaya and Bollywood film director Ashwini Chaudhary brought out questions by the students on the art of critiquing. Epoch-making theatre personalities like Mihir Bhuta, Delnaaz Irani, Lubna Salim and Aparna Mehta took the packed hall on a nostalgic journey theatre and the importance of regional languages.

We had fire sight chat by you tubers like Satyen Bordoloi & Ashwini Mishra. This was followed by a session on Radio workshop titled on air with by RJ Abhilash- primetime RJ Big FM. OTT panel was graced

Journey of a joke by eminent comedian and actor Kiku Sharda and stand-up comedian Poornima Toprani.

by Chavi Mittal, Rashmi Agdekar, Ahsaas Channa, Archita Jasani from Eros and Saharsh Gupta. The icing on the cake was the workshop on stand-up comedy, titled journey of a Joke by eminent comedian and actor Kiku Sharda and Poornima Toprani.

We had special workshops and master classes by industry experts like Karl Gomes, Dhunji Wadia, Arijit Ray, Varun Duggaralia, Prashant Nakwe, Rafiq Maqbool, Filmfare winner Kamod Kharande, Yogesh Pawar, Saurabh Gupta and many more. DGMC-MIA endeavors to create skilled and trained media professionals to suit the dynamism of the creative businesses' industry with its unconventional pedagogy. Teaching and learning also happen beyond classrooms.

The highlight of the media festival was 'Youth Parliament', which provided collegians an opportunity to deliberate on issues that concern the country. DGMC chose a techno-savvy topic like "Artificial Reality" which plays a crucial part in our lives and one, which we don't discuss. Prof. Devendra Pai chaired this.

The festival also had games and activities. The festival was decorated a student spearheaded art show where artwork by students was displayed around the campus. DGMC has students with diverse artistic competent. Thus the entire media coverage of the event was also shot by the students, which were later made into after movies. Needless to say with DGMC's performing artist

talents, the festival also saw an open mic that was open to all for any kind of performance.

This 2-day extravaganza was an eventful and unique experience for everyone who believes in the power of the arts as a proponent of change and Media as multifaceted. The festival garnered a holistic perspective of the fast-changing trends in the Media industry.

MIA witnessed the footsteps of loudest rhythm, the heartbeats of joy and excitement, a wave of intellectual bliss; it embarked its passengers to a land beyond the imagination.

A WISE HIVE

**Education is
not the

but the
lighting of a
fire.**

The second term of the academic year 2019-20 is coming to an end and it is a matter of immense pleasure for all of us to note that Jankidevi Bilasrai Bubna Boys' Hostel has become one of the most sought after boys' hostel in the western suburbs of Mumbai within a short period of time.

The Management has taken full care for the safety, security as well as cleanliness of the hostel premises. The security staff on duty perform with full devotion, punctuality and alertness. The house-keeping staff keep the hostel spic and span by cleaning all the areas at frequent intervals. For safety and security of the hostel students, suitable fire detection and fire-fighting system have been provided in the building. CCTVs are also installed for 24x7 security. There is wifi access to the entire building.

Jankidevi Bilasrai Bubna Boys' Hostel is under the care of the Warden who always takes care of the inmates so that they can concentrate in their studies. Hygienic breakfast and dinner is provided to the students by the in-house caterer of RSET. It was extremely

considerate of the Management to provide lunch to Indian students and both lunch and dinner to foreign students as additional services during complete lockdown due to COVID-19 Pandemic though it was not in their package. Also, in spite of non-availability of public transport, few house-keeping staff were regularly present to clean the hostel from time to time.

Students of Jankidevi Bilasrai Bubna Boy's Hostel are also provided gym facilities and gym equipments such as treadmill, cycle, bench and dumbbells have been provided at the ground floor conference room while the actual gym is under construction on the terrace. This facility helps students to work out as per their convenience. Washing machines are also provided to students in the washing area. At present, the hostel is full to its capacity with 152 students. Out of those, 132 are Indian students while 20 students belong to foreign countries. They are from Bangladesh, Afghanistan, Egypt, Madagascar, Tunisia, Tanzania, Ghana, Sudan, Fiji, Mauritius, Sri Lanka and Malawi.

We are sure that in the next academic year of 2020-21 too we will have full enrollment of students in the hostel and the hostel staff will work harder to look after the comfort and safety of the boys coming from other cities as well as countries.

Dr Vasanti Padte is a 93 year old educationist and philosopher who has been engaged in spreading good educational practices for almost 70 years. She has been an advisor to the J Krishnamurti Foundation schools for several decades.

Educating *the* Educators.

If we are sensitive enough and observe the present state of society and the state of human mind, one feels something is going terribly wrong somewhere. When one tries to go to the root of the thing, one realizes that the major responsibility lies on education.

In civilized society why should there be wars? Is not killing brutal, uncivilized? Why is mass killing on borders justified and honored while one murder is punished? Are the rulers who declare wars, not mass murderers? They say it is for justice, what kind of justice is that? Is there such a thing as a just war? It is an illusion. Somewhere some fanatic commits an act of terrorism and thousands not even remotely connected with it are killed. Children and innocents are killed. These wars never end. Iraq, Afghan, Israel are ongoing examples. These uncivilized rulers and fanatics were all students at one stage in time. What they learnt from what we taught is shown by the use of that education. We see the precision and efficiency in conducting wars and terrorism. Attack on American towers is an example of tremendous courage, efficiency, knowledge, skill, commitment, devotion, tenacity, perseverance and patience. They have all that but humanness, wisdom, and love. We also try to inculcate in our children the same qualities in schools; we put them into a rat race where there is no chance for humanness. We give them skill, knowledge without the right attitude to use those skills.

Right education seems to offer a hope to bring change in human consciousness. To bring change in human mind through education is an arduous task but that seems to

be the only sustainable solution. One thing is certain; it cannot be a quick fix. It needs lot of serious thinking with passion. The intent is holistic, but begins with particular, keeping in mind all the time the whole, the whole is the holistic the sacred.

This is not some abstract idea. Nature has bestowed man with such beautiful capacities, that one can live and allow others to live life compassionately. This is possible, but one must trust and work with passion.

If one is convinced that the present state of education is responsible for the present state of human mind and as a result the present society, then one has to think about a radical change in education.

A lot of research and planning has to be done on large scale. That does not mean one has to wait till that is available. Every concerned individual must begin at his or her level now! The house is on fire!

The basic thing to live a normal, sane life one has to have a healthy body and healthy mind. Actually they cannot be separately treated but we treat them separately. Our doctors take care of the body and training the mind is left to teachers who have hardly any awareness of that. Dr's training is comprehensive. Lots of money, time and efforts are spent on their education. Everybody knows it. A teacher, who is responsible for another more important aspect of human being, is trained in the most pathetic way. Teacher's job is thought to be of least importance.

So teachers training has last priority. Also teacher's job is

the last choice for most people. (There might be few exceptions.)

Teacher, who is responsible for most important aspect of human being, that is one's mind, nature, attitude, inner being, is trained very superficially. Teacher's training is pathetic in our country; it is not much different in other parts of the world. Teachers are trained in one year. There is not much time for teacher students and their teachers to look into any matter deeply and seriously. Attending lectures, finishing theory part, making timetables to give lessons, planning and getting approval, giving model lessons, giving and observing, discussing lessons, giving remarks, appearing for exams, participating in extra-curricular activities, and so on, in one year's time. Both teacher student and teachers have to rush and complete the target, record those activities with many compromises and loop holes.

Degree is important to get job and to save job. Learning is lost in the process. Teacher's education has to be changed radically. Sane, healthy society and education are inter-related. Our education is responsible for the crisis in the world. But where is the money? Who has the time? Who is aware of the importance of right education? The policy makers who actually run the school are all educated by the teachers who are taught in these pathetic training colleges. To bring about radical change in education and so in the society, the education of educators has to be transformed. The training colleges should not be less important than any medical college or engineering college.

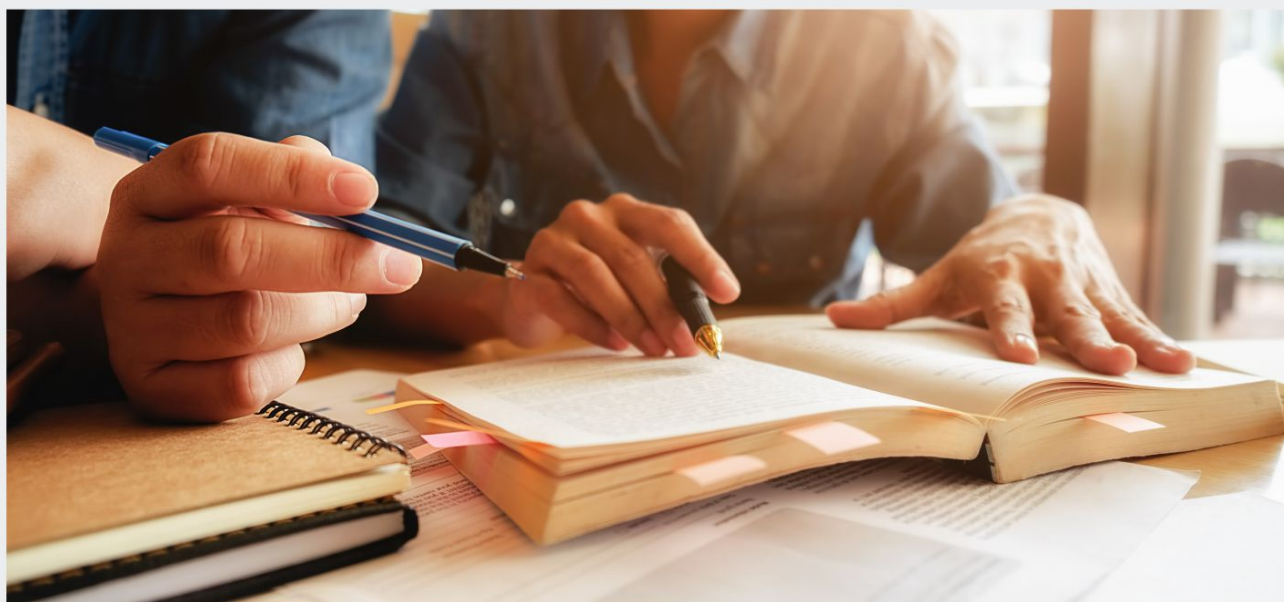

1. New curricula are to be set, eminent and concerned educationists are to be invited to set.
2. Subjects like Philosophy, Psychology, Neuroscience, Sociology, Ecology and Theory of knowledge, and

related subjects are to be given due importance. They are to be exposed to the sciences from Astronomy to Nuclear physics so that one can understand one's place in this Universe and what status and reputation means to humanity. This may make them aware of the vastness of universe that may naturally lead to humility and a feeling of interconnectedness. Teacher's attitude is equally important as their subject competence. They may experientially feel the importance and responsibility of teaching and learning. The intense feeling may translate into action.

3. While achieving subject competence teacher should know the philosophy and history of the subject.
4. Duration of the course has to be three or more years. This may give them chance to be with some concerned educators for longer time. Student teachers are adult graduates, they may get chance to learn about themselves and the world deeply.
5. Along with experts, eminent thinkers from outside are to be invited to have dialogue with student teachers. So they get chance to bring new light.
6. Practicals are to be organized very efficiently; generally they are finished as rituals for record keeping.

Many more suggestions could be received from holistic thinkers. These institutes of teacher's education are not teacher's training organizations but centre's for learning where the concept of training teachers will be radically changed. Then there is hope to bring about change in human life on this planet.

- Dr. Vasanti Padte.

Memorable Events/ Journey in the Institution:

Ladhidevi Ramdhar Maheshwari Night College of Commerce is a great place for a student as one would get to learn many things from the institution. The college pays special attention to the overall development of students. The various associations of the College conduct a number of activities throughout the year. I am very much grateful to the institution as it gave me a chance to work as the General Secretary of the college for 2018-19, which made me to realize that it is not just a formal position but it calls for understanding your team and making them to do things perfectly which is helpful for the institution as well as to the overall development of students. The academic environment helped me to pass my graduation with first class.

I am very much grateful to the Principal and the teaching staff members of the institution as they are the support system of every student.

Memorable Events/ Journey in the Institution:

"Tell me and I forget, teach me and I may remember, involve me and I learn". Year 2008 I became part of GS college as first year student B.Com. The enthusiastic & extremely experienced faculty members, supportive seniors and friends enlightened my journey by their guidance & support. In addition to academic part, the college also provides platform to exhibit talent in sports and other co-curricular activities. The college provided me opportunity to join one of the esteemed youth organization of India i.e. The National Cadet Corps (NCC) that gave me opportunity to prove myself at National Level when I was eventually selected as All India Best Cadet in the year 2010.

As I mentioned in the first line "Involve me and learn", I would like to appreciate efforts of all the faculties who are not only involving the students so that they learn, rather they have an art of making "learning with fun". The amount of growth I have seen in myself at the end is inestimable. Without any ambiguity, as a result of everything I mentioned above, I have been able to renovate myself into a more confident individual and a responsible citizen of India.

Most Memorable Event in the Institution:

This school holds a special importance to me. I still remember the first day, 6 years ago when I joined this institute in grade 5. When I joined here I was just like an ordinary child, but the entire transition from ordinary to extraordinary was done here for which I'm thankful to RBHS. I was able to discover my talent, my interests and learned to become a better citizen of the society. I have made a great collection of beautiful memories which I've made here consisting of my achievements and all other fun filled activities. First, I am blessed with the fact that I have Padmaja Ma'am as my Principal. She has always been there for me for every single bit, from the tough times to the glorious days, Thank you Ma'am for guiding me and motivating me. Also, I will never forget the contribution made by my teachers and the support staff. I am thankful to them for my academic performance. Truly, Principal ma'am and the RBHS teachers deserve everything for what they have done for me.

Now I'm doing the IBDP and I am going to pursue Astrophysics in the future. I really miss this school now. I always think of turning back the clock and want to relive the entire journey. I will never forget this phase of my life. At last I can assure myself now that this is and always will be- "My school, my home".

The hostel provides safe and secured accommodation to male students coming from other states and abroad in Mumbai for obtaining higher and professional education. It is housed in an independent building with seven floors and is situated near RSET campus. It has all state of art facilities such as a canteen, air-conditioned study area on all the floors, lounge and TV room, games room etc. All the rooms are air-conditioned.

With the increasing globalisation and the foray of multinationals, organisations are looking at globally savvy individuals. To meet the fast changing requirements of the corporate world, RSET's proposes to start a Finishing School that will impart training in soft skills, communications, personality development etc with a view to groom the students for challenges of internationally benchmarked corporate world.

The proposed Skill development centre aims to advance the skill sets of the students to compete in a global environment. The objective is to provide necessary information and training to develop the skills sets of the students and make them industry ready. The Skill Development Centre will help bridge the industry-academia gap for employability.

The Teacher's training institute aims to be a prominent name in the field of providing teacher's training courses. The Institute will aim to provide high quality training programs to aspiring teachers who want to get into the teaching profession as well as to those who are in the teaching profession to transform them into experts and prepare them for the rapidly changing dynamics of the global teaching methodologies and new approaches of teaching.

The Pledge One program provides an opportunity to pledge undertaking education for the under privileged strata of the society studying in the aided section of the educational institutions of Rajasthani Sammelan Education Trust. The donations received under the Pledge One program is utilised in an equitable manner to ensure that these students receive Quality Education in an environment that nurtures growth.

To encourage bright students studying in the Kudilal Govindram Seksaria School, Rajasthani Sammelan Educational Trust has come up with an endowment fund titled "Bright Sparks Endowment Fund". This fund has been conceived to provide educational enrichment to talented and deserving students studying in Grade 5 and above.

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
