President's Message

Dear Reader,

Rajasthani Sammelan Education Trust (RSET) has recently completed its 75 years of its educational journey. Completion of 75 years is undoubtedly an important event in the life of any organization, especially an Educational Trust which shapes the future of all those students who walk through its portals. I take this opportunity to extend my heartiest felicitations and best wishes to all my colleagues in the Managing Committee, the Trustees, the Principals, the teachers, the staff and students. With great deal of satisfaction and pride, I look back at this educational journey of RSET from its humble beginnings with a single girls' school in 1959 to the present position of running fourteen educational institutions where 16000 students daily come to receive education in their respective institutions.

Set up in 1948, RSET has over the past 75 years, played a stellar and leading role in providing quality education in schools affiliated to SSC, ICSE and IGCSE Boards, an International Play School accredited by International Playschool Curriculum of U.S.A., a junior college affiliated to Maharashtra Board, Graduation and Post-graduation studies covering a variety of streams affiliated to Mumbai University. Along with these educational institutes, we also have a Vocational institute, an Online Academy, a Music Academy, a Women's hostel, a Boys' hostel, a Career Counselling Centre and many other facilities that help students to get an all round education so that they may grow-up to be model citizens and contribute to the growth and development of our country. Towards this aim, we have provided the best infrastructure including sports facilities at Pravinchandra D. Shah Sports Academy, libraries full of books, journals, magazines, newspapers and e-books, computer lab, science labs as well as opportunities to participate in extra-curricular activities.

At the school level, along with studies, students are encouraged to participate in various International Olympiads, Drawing competitions, Science Exhibitions, Interschool debate competitions and many such activities that nurture the talents of our students right from an early age. At Pravinchandra D. Shah Sports Academy, expert coaches are appointed to train students in various games.

In the institutions of higher education, we recognize the importance of research for the development of the knowledge and innovation of the faculty. Our faculty members are actively engaged in research and some of them are approved research guides of Mumbai University as well as other universities. Time to time International Conferences are organized by our colleges and management institutes. Many foreign scholars and dignitaries are invited by our management institutes. At school level, students of Mainadevi Bajaj International School and Ramniwas Bajaj English High School communicate with European schools as members of EUMIND (Europe meets India) and every year they jointly work on a project with an European school through video-conferencing.

At RSET, we have a policy of inclusiveness and the will to serve the most economically backward sections of society. Hence we have created many endowment funds giving scholarships and freeships to meritorious and needy students. Every year, a grand Scholarship Award Ceremony is held during Annual Day celebrations. This year too, the Scholarship and Free ship Award ceremony was held in Durgadevi Saraf Hall on 25th January where scholarships and Free ships were awarded to the selected students by Shri Vipul Shah, representing BKT Industries Ltd., Smt Sharda R. Bubna, Director, Sharda Cropchem Ltd. myself and Shri Kailash Kejriwal, Hon. Secretary, RSET.

To commemorate the completion of 75 years, a scintillating function was

Ashok M. Saraf, President, RSET

organized on 25th January 2024 at Pravinchandra D. Shah Sports Academy ground with Pandit Hariprasad Chaurasia, renowned Indian Flautist as the Chief Guest and Shri Jairaj C. A Brochure highlighting the details of the Endowment Fund was also released at the hands of the Chief Guest Pandit Hariprasad Chaurasia, Guest of Honour Shri Jairaj C. Thacker, Shri Sujay Jairaj, Special Guest and other dignitaries on the dais

During the celebrations, a souvenir highlighting RSET's contribution and achievements in the field of education was released at the hands of the Guest of Honour, Shri Jairaj C. Thacker, Managing Trustee of Narsee Monjee Educational Trust, and office-bearers of RSET on the dais. We also felicitated the family members of the Founding Fathers and the Legends for their invaluable contribution, leadership and hard work for the growth and development of RSET in the educational journey.

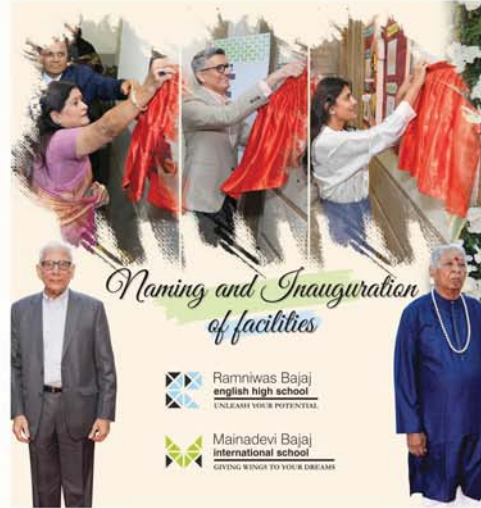

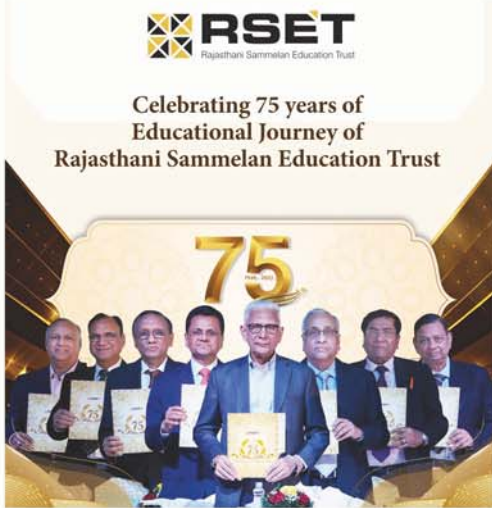

All our achievements would not have been possible without the generous support of our Donors- individuals and Trusts who came forward with handsome contributions to start new institutions over the years. I am also thankful to the sponsors of this celebration of 75 years.

Rajasthani Sammelan Education Trust aims for continuous excellence. The Management and the teaching community here over the years have laid emphasis on providing to its students education relevant to the times, focusing on their all-round development and organizing various programs seeking to sensitize them to mature into socially mature individuals. I am confident that RSET will have many more achievements to its credit in the years ahead.

Dear Reader

"Grow old along with me!
The best is yet to be,
The last of life, for which the first was made:
Our times are in His hand".....

These lines are from the famous poem "Rabbi Ben Ezra," written by the great British poet Robert Browning (1812- 1889) of the Victorian Age which state that old age is the best part of a person's life when he/she gets a deep insight into life and acquires wisdom. This idea of 'The best is yet to be' is applicable to Rajasthan Sammelan Education Trust that had a humble beginning but over the years has reached to its pinnacle of excellence in its long educational journey of 75 years.

The Trust was established in 1948 and later realizing the need for girls' education , started Sarvodaya Balika Vidyalaya, a Hindi Medium girls' school in 1959 now known as Kudilal Govindram Seksaria Sarvodaya School. Over the years in its educational journey , the Trust has been constantly growing network of educational institutions and facilities for the student community in order to provide them total education. In all these years, the campus has also undergone a total revamp with a new building having 12 floors facing Swami Vivekananda Road in Malad West and a new building of 7 floors to accommodate already existing institutions as well as new institutions that were started from time to time with state of art facilities.

The 75 years of educational journey of RSET has been dotted with many important milestones which include establishment of endowment funds to provide scholarships and free ships to students , visit of important personalities, collaboration with international universities , awards and achievements of institutions , faculty and students. Some of our students who have passed out of the portals of the institutions of RSET have made us proud by their achievements.

The culminating ceremony of celebrating the 75th year of Rajasthan Sammelan Education Trust was held on 25th January 2024 at Pravinchandra D.Shah Sports Academy ground. Pandit Hariprasad Chaurasia, internationally renowned Indian flautist graced the occasion as the Chief Guest while Shri Jairaj C. Thacker, Managing Trustee of Narsee Monjee Education Trust and Shri Sujay Jairaj graced the occasion as the Guest of Honour and Special Guest respectively.

Pandit Hariprasad Chaurasia inaugurated the function while a souvenir highlighting RSET's contributions and achievements in the field of education was released by Shri Jairaj C.

Dr. Sunanda Kar, Editor

Thacker, Shri Ashok M.Saraf, President RSET, Shri Rajkamal Bajaj, Vice-President RSET, Shri Kailash Kejriwal, Hon. Secretary RSET and other office-bearers of the Trust on the dais. During the celebrations, Shri Ashok M. Saraf, President RSET acknowledged the invaluable contributions , leadership and wisdom of the Founding Fathers of the Trust and felicitated their family members. Some of the Legends of RSET were also felicitated for their inspiration and hard work in the educational journey of RSET. All the staff were awarded gifts as a token of their dedicated services in the journey of educational excellence of their respective institutions and departments that were handed over to them at later dates.

Coming to academics, starting from academic year 2024-2025, the institutions of higher education (non—autonomous colleges) affiliated to Mumbai University will be able to pursue four year degree courses like BA, BCom and BSc as per the guidance of NEP (National Education Policy). Mumbai University has formed cluster of colleges to decentralize the implementation of the process. However Autonomous colleges are free to make use of the expertise of university departments and other institutions to frame their curricula, devise method of teaching, examination and evaluation.

In RSET campus, our schools, colleges and management institutes have conducted many academic, extra-curricular and sports activities. All the institutions celebrated Annual Day in a grand manner at Pravinchandra D. Shah Sports Academy ground. Institutions of higher education organized many seminars, conferences , guest lectures and conclaves. To mention a few, Ghanshyamdas Saraf College organized one day International Conference on 3rd February 2024. Durgadevi Saraf Institute of Management Studies organized a Faculty Development Programme on 29th January 2024 on NBA (National Board of Accreditation). English High School on 25th January 2024 marked a significant milestone in the school's commitment to science education. The Science Wing has dedicated laboratories for Chemistry, Biology, Physics and ICT Lab where students from the Pre-Primary to Secondary sections have access to enhanced facilities for hands-on learning and experimentation.

In the biology laboratory, practical models and charts help students understand complex topics like the human body systems. Microscopes allow for detailed exploration of microscopic structures, enhancing students' understanding of biology concepts.

The chemistry laboratory offers a comprehensive range of experiments, from basic lab apparatus introduction to more advanced techniques like volumetric titrations, chemical reactions, separation techniques and flame tests. These experiments provide students with valuable practical skills and deepen their understanding of chemical concept Similarly, in the physics laboratory, experiments focusing on topics like verifying the laws of refraction

of light using a glass slab, to determine refractive index, to study the variation of the angle of deviation of ray light, to learn about different types of magnets, simple machines etc. offer students opportunities to apply theoretical knowledge in practical settings. This hands-on approach can make abstract physics principles more tangible and easier to grasp.

The ICT lab also plays a vital role as computer education has become imperative for students to stay updated.

A computer lab is a dedicated space equipped with computer hardware, software, and other resources for students to learn and practice computer-related skills.

Republic Day Celebrations

Republic Day i.e. 26th January is a special day for India, celebrated annually as a National Festival all over India to commemorate and honour the day when the Constitution of India came into force in the year 1950 as the governing document of India. A salute of 21 guns and the unfurling of the Indian National Flag by Dr. Rajendra Prasad heralded the historic birth of the Indian Republic on that day. Thereafter, 26th of January was declared as a national holiday and was recognized as the Republic Day of India. Ever since the historic day, January 26 is celebrated with festivities and patriotic fervor all around the country.

Every year, institutions of Rajasthani Sammelan Education Trust celebrate this day with patriotic fervour and gaiety. For this, we remember Gandhiji's leadership with reverence and gratitude. The Pre-Primary Fun Learning Activities

Festivals are an important way of bonding and learning about our culture and a time to gorge on delectable goodies significant to each festival.

Republic Day was celebrated by giving importance to our first language, rather our mother tongue. Students not only came dressed in tri-coloured outfits but also spoke a few sentences in their mother tongue. It is important that we treasure the learning of this language which holds the richness of our culture.

Free Play is known as child-directed learning and is a play-based learning method where children can play without rules or instructions. This helps them express their emotions, build their vocabulary, be creative and much more. The students enjoyed role play in various created corners in their classrooms.

Junior Scientists' Day is the day to ask WHY. It is important to be curious and develop the desire to know more. The teachers performed a few experiments and encouraged students to understand the concepts.

Bookworm week is the time where the students bring their favourite story books and read them in class. Indoor and outdoor reading is enjoyed. Care of books and learning to use bookmarks is learnt. The week culminated with them dressing up as characters of a story and narrating the story.

The fitness week took the children on a trip to the Goregaon Sports Club where they learnt about various sports and how they help us to stay fit and healthy.

The Annual Exhibition is much awaited and this year the theme was 'Jungle Jamboree'. The event captured the imagination of both children and

parents. The floor was transformed into a vibrant jungle setting displaying various ecosystems. The 3D models of animals provided a real feel of the jungle habitat. Students eagerly shared information about the various animals and demonstrated a remarkable understanding of the theme. The atmosphere was electrifying and engaged the audience in an immersive experience.

The end of the year is also a time to capture memories of the enjoyable moments and what better way than to do that with a class photograph – a keepsake for parents and teachers.

PRIMARY and SECONDARY - ACTIVITIES and CELEBRATIONS

School Field Trips

Field trips are not a novelty rather a necessity as it is equally important to have outdoor learning as it is to learn in the school building.

The little primary students embarked on an exciting adventure to visit a Bus Depot. The kids embraced the experience wholeheartedly, enjoying the opportunity to explore the depot unencumbered. It was a day filled with laughter, learning and unforgettable memories as the young minds marvelled at the intricacies of public transportation.

Field trip - Global Vipassana Pagoda

The older primary kids visited the Nehru Science Centre and eagerly anticipated the discoveries. From interactive exhibits to hands-on experiments, the day was filled with awe-inspiring moments and valuable learning opportunities, leaving a lasting impression on each young mind. The students of grade 8 visited the Global Vipassana Centre.

Over-night Trips make memories of a lifetime

The middle school students visited Sasangir Gujarat in the company of teachers and tour guides. The excitement was travelling in a modern train and soaking in all the joys of a train travel. Besides riding in a safari jeep and spotting a pride of lionesses and lions, the children also visited the Triveni Sangh and Somnath temples and the Junagad fort.

Embarking on a delightful 4-day school overnight trip, grades 3 - 5 delved into diverse experiences. They visited the Amul Dairy, the Valley of Flowers, Akshardham temple and Sabarmati Ashram. The colossal Statue of Unity left them

Enjoying Makar Sankranti

awestruck while the vintage car museum offered a glimpse into automotive history. The Robotic Gallery and the vibrant Kankaria Lake added a modern and recreational touch, ensuring a trip where learning was seamlessly intertwined with enjoyment.

The overnight camp to Wada was an exhilarating experience for Grades 1 and 2. Adventure sports such as the Burma Bridge, zipline, and obstacle course provided thrilling challenges for the students. Playing in the mud and gathering around the bonfire added a special charm to the trip, fostering camaraderie and fun-filled memories. Additionally, students had the opportunity to learn about the techniques of Warli painting and experience aspects of village life such as milking cows. They also enjoyed the serene beauty of a sunrise and nature walk, followed by an energizing yoga session. The visit to the ISKCON temple provided a peaceful and spiritually enriching end to their memorable journey.

Pre Republic Day Celebrations were marked with students imaging the new Parliament House painted in a colour of their choice. Some students created posters outlining their duties and responsibilities in school and on the road, fostering a sense of civic awareness.

The Annual Day is always a time where memories are made, dreams take flight, and the spirit of togetherness shines bright. 'Earth Song' was an apt title for the annual day especially when everyone around is concerned about the climatic situation. The programme was divided into three parts - In the Beginning, Man Becomes Selfish, There is an Answer.

The performances took us through the journey of the earth where eons ago the forces of nature lived in harmony and then man started exploiting it for his convenience.

Besides the energetic and vibrant dances, students brought out their talents in creative ways like the Sustainable Fashion show with dresses designed by the students, the story of the Uttarakhand deluge narrated through mime and Shel Silverstein's dramatic recitation of 'The Giving Tree'. The choir beautifully belted out that we can count on trees to pull us out of this mess. While the parents were left enraptured by the energy, vibrancy and the colourful display of talent, the performances did drive home the message of caring for the planet and their future. The guests for the events - Mr Vinodkumar Bajaj, Mr Rajkamal Bajaj, Dr Rajan Welukar and Mr Dilip

Piramal along with our trustees added to the grandeur of the evening.

The Chatrabhuj Narsee Science Wing at RBHS was inaugurated on the 25th of January 2024, marking a significant milestone in the school's journey towards academic excellence and scientific exploration. This coincided with the 75 Years celebration of RSET.

Panache

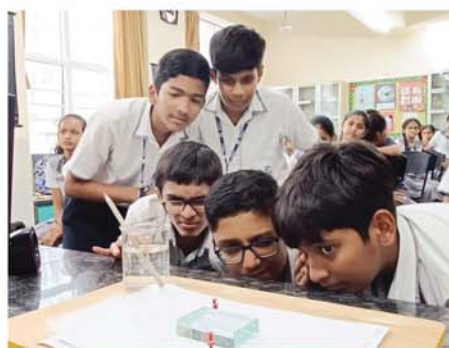

Inter school event - PANACHE

Panache 2024 celebrated the spirit of sports with the inter school event - A Sporty Affair. True to its name, A Sporty Affair aimed at celebrating the joy of games long forgotten like Langdi, Lagori and dodgeball. We wanted to revive the fun of our childhood in the children of today; and we succeeded. The teams who participated followed the rules of the referees and showed great strength and focus while playing.

Along with this there were sports related novel competitions like sports commentary, hairstyling for a sportswoman, a post workout snack and designing a sports jersey. The creativity of the competitions added to the innovative ideas exhibited by the students and it was a marvel to see their creations and spontaneity. The champion of the event was The Universal School Thane.

National Science Day

National science day celebration

On the 28th of February, our school celebrated National Science Day with great enthusiasm, commemorating the significance of the Raman Effect discovered by Indian physicist Sir CV Raman. The event featured science experiments conducted by our dedicated science teachers, aimed at showcasing various scientific concepts in an engaging and interactive manner. These age-appropriate experiments not only made the learning process enjoyable but also facilitated better understanding and retention of scientific

principles among students. Additionally, short videos related to science were screened, further enriching the educational experience and fostering a deeper appreciation for the wonders of science.

Culminating Activity Day

The Know Bloc by Gen R (RBHS) was a dynamic event held on March 21st, inviting parents to join in the excitement. This culminating activity showcased a diverse range of engaging activities, including Zumba sessions, quizzes, First in Math tournaments, graphic designing workshop and art workshops. With a wide array of options available, participants had the opportunity to explore their interests, showcase their talents, and enjoy a day filled with learning and fun. *“Do the best you can.
No one can do more than that..”*
- John Wooden

This quote emphasizes the importance of giving your best effort in everything you do. It suggests that success is not solely determined by achieving perfection or surpassing others' expectations, but rather by striving to reach your own personal best. By doing your best, you maximize your potential and capabilities, ultimately leading to a sense of fulfillment and accomplishment. Each individual has limitations, and as long as you give your all within those limits, you can take pride in your efforts regardless of the outcome.

The New Year usher's culmination of Academic year and evaluation of students' learnings across Institutes. This period is marked with enthusiasm, anxiety and fear for future amongst student and Parents. At RMCC we have been assisting students to build on their Academic skills , Emotional well-being and Career pathways.

RMCC has been administering Psychometric evaluation to evaluate Academic grade gap in the students. These assessments provide insight into students' academic challenges and determine the appropriate course of action moving forward. The counselors actively facilitate individual counseling sessions aimed at addressing personal concerns and challenges. Additionally, they organize sessions focused on enhancing personal skills and capabilities. The Special Educator played a pivotal role in promoting inclusive education and supporting students with diverse learning needs. Collaborative meetings were held with counselors and class teachers to address individual student requirements, develop tailored interventions, and implement support strategies.

Parent meetings were conducted throughout the quarter, providing valuable opportunities for parents to connect with counselors, and the Special Educator. These meetings served as platforms for discussing student progress, addressing concerns, and fostering a collaborative partnership in supporting student development.

The Special Educators led and participated in offline sessions, demonstrating a commitment

to providing hands-on support and guidance to students. These sessions encompassed a range of activities aimed at addressing individual learning needs, facilitating skill development, and promoting academic success.

Career assessments have been conducted for the students to help them evaluate their Personality, Interest and Skills and Abilities to identify various career options and pathways. Students from Grade VIII onwards have been guided for Subject/Stream selection. Working professionals have been guided through their Careers for their career progress and change in job profiles. Students across India and Internationally have been counselled at the centre for their career. Guidance on entrance examination and eligibility criteria is been provided to the students.

University sessions have been organised for students and parents of MBIS. Faculties of School of Branding and Advertising and Liberal Arts gave details of course curriculum and eligibility criteria for the program. Admission counselor from University of Sydney gave detailed insight on eligibility requirement, programs offered at the Campus and visa process for pursuing education in Australia.

Study Abroad counseling at the centre is assisting students to fulfil their Overseas education aspirations. Students are guided from course selection to complete application process. RMCC offers counseling for more than 22 countries and 1500 universities. With dedicated assistance at each level of application RMCC ensures smooth process for the students.

The Senior Counselor provides Life Coaching sessions, guiding individuals through collaborative exploration and strategy development to create actionable plans for achieving personal goals. Adopting a partnership approach, the counselor views

clients as collaborators rather than patients, working together to identify solutions tailored to their specific circumstances. People seek out the counselor's expertise in life coaching to pursue success, navigate personal challenges, enhance relationships, advance in their careers, or explore new aspirations. The period at RMCC was characterized by a diverse range of initiatives aimed at supporting student development. Through career assessments, counseling sessions, and academic evaluations, we tailored interventions to meet individual needs. The active involvement of counselors, special educators, and teachers underscored our commitment to inclusive education.

Parent engagement played a crucial role in fostering collaborative partnerships, addressing concerns, and promoting student success. Our efforts extended to in-campus schools like RBHS, MBIS, and KGES, where we provided tailored support and guidance. Moving forward, we remain committed to fostering a supportive environment where every student can thrive academically, socially, and emotionally. We continue to adapt and innovate our approaches to meet evolving needs.

Teacher Educators' Perception about Implementation of NEP-2020 in Teacher Training Institutions

Dr Imran Ansari (Assistant Professor)
Maulana Azad National Urdu University,
College of Teacher Education, Asansol, (West Bengal)

The New Education Policy (NEP) 2020 is a comprehensive document that emphasizes the need for restructuring and revitalization of the Indian education system. The policy has advocated a big structural change in the design of curricular and pedagogy of school education system, i.e., 5+3+3+4. It has also suggested structural change in the teacher education programme, i.e., 4 years of integrated B.Ed. programmes like B.A. B.Ed., B.Sc. B.Ed., and B.Com. B.Ed., etc. However, is the structural change in the teacher education programme in line with the change in the school education system? Will the proposed 4-year integrated programme be compatible with the school education system? NEP-2020 also states that teacher education institutions will be move by 2030 as multi-disciplinary colleges and universities with multiple entry and exit point systems; this is an additional challenge for institutions that have offered only one teacher training programme or a so-called "stand-alone" institution. How would the idea of integration and a multidisciplinary approach be made possible in such an institution?

To address some of the questions raised above, the researchers conducted survey research on teacher education institutions. Initially, the NEP-2020 document was analyzed with respect to the guidelines and provisions of teacher education programmes. The researchers sampled 30 teacher educators has been taken from different teacher training institution of the country. It has been found that infrastructure, funding,

clear guidelines etc., were major challenges for educational institutions. In addition, suggestions were solicited from them on how to smoothly facilitate the implementation of the policy. The findings are significant for academia and other stakeholders.

Key words: NEP-2020, Teacher Education, 4 years B.Ed. program, 5+3+3+4 Structure in School etc.

Since the independence of India, the government has made every effort to improve the quality of education, including teacher education. Various committees and commissions were constituted in this direction, and their suggestions were welcomed, which provided further guidance in policy formulation. The formation of apex bodies in the field of education, such as UGC, NCERT, NAAC, and NCTE, etc., are the product of progressive thinking in education. The primary objective of these organizations has been to ensure that teaching and learning continue to meet the highest standards. After 34 years of the National Education Policy (1986), NEP-2020 vision is to transform India into a global knowledge superpower by providing high-quality education to all.

In response to the growing demand for education, both public and private institutions of higher education have mushroomed in recent decades. Citing the report of Justice Verma Commission (2012) on teacher education institutions, NEP-2020 adds that most of the

standalone teacher training institutes (TEIs) are just selling degrees rather than imparting quality education. It states "a majority of standalone TEIs - over 10,000 in number are not even attempting serious teacher education but are essentially selling degrees for a price" (NEP 2020, p.42, para 15.3). These institutes lack adequate infrastructure, quality teachers, etc., so they cannot set standards of excellence in their field. In this regard, the future of the nation is at risk as the teachers produced by these institutions will be ill equipped or incompetent to meet the needs of the 21st century students. The policy recommends that the teacher education system be revitalized through radical action to raise standards and restore the system's integrity, credibility, efficacy, and high quality. This is because, according to the policy, standalone teacher education institutions are unable to recruit the diverse faculty that is required for good teacher education. It argues for the transition to a four-year multidisciplinary B.Ed. programme and a composite multidisciplinary institution for all teacher education programmes as opposed to a standalone institution. Until 2030, all standalone teacher education institutions should be transformed into multidisciplinary colleges and universities.

The new education policy is a significant departure from the status quo because it changes the structural and pedagogical framework. However, one of the toughest challenges of such a paradigm shift is preparing the teachers for the new pedagogic and curricular structure

of school education, i.e. 5+3+3+4. The NCTE has not yet issued clear guidelines as to how to prepare and train teachers for the new school education system. Venkateshwarlu (2021) argues that a thorough structural re-design of the curriculum is a very positive development in school education, but that in order to implement this change successfully, we must first invest in the professional development of teachers. A change in curriculum requires a significant change in the mindset of both teachers and parents. In the light of the foregoing information about the structural and pedagogical changes in school and teacher education as proposed by NEP-2020, the following objectives have been developed.

The NEP-2020 has overwhelming expectations from all stakeholders. Therefore, for its implementation at the ground level, all stakeholders need to work in a very enthusiastic, honest, active, and cooperative manner, where teacher educators will play a key role in its successful implementation. Therefore, teachers need to train to a standard level of 21st century knowledge, skills, and professions; and consequently, continuous professional development (CPD) should be required. As

NEP-2020 emphasizes comprehensive training for both pre-service and in-service teacher educators in order to improve their quality and professional standards through continuous professional development (CPD), it also suggests that the National Professional Standard for Teachers (NPST) be set with the help of NCTE, NCERT, and SCERT, which will work under the General Education Council.

As the NEP-2020 suggested an increase in budget allocation for education from 3% to 6% of GDP, it will also be a watershed decision in resolving the institution's financial crisis and meeting the needs for advanced levels of resources in teacher training institutions. Stand-alone institutions are hopeful that the increased budget for education will assist in the transition to multidisciplinary colleges and universities. A 4-year B.Ed. course in a teacher training institution required clear guidelines, supports, and controls from the administrative level of the institutions like UGC, NCERT, NAAC, and NCTE with respect to the design of the National Curriculum Framework for Teacher Education (NCFTE) and how multiple entry and exit point systems with credit transfer systems will work together in a teacher education program.

Memorable Events/ Journey in the Institution:

In March 2021, I received an opportunity to publish a research paper at the 7th Remsons International Conference on "A Study on Investors Perception and Awareness Towards Sovereign Gold Bonds in Mumbai". The conference was held online due to the Covid-19 pandemic. It was an enriching and amazing experience for me. This was the most memorable event in DSIMS for me. I had an amazing time at DSIMS, even though the lectures were held online due to the Covid-19 pandemic it was an interesting and incredible experience to learn. The faculty were very helpful and were always there to guide me. I am grateful and blessed to be a part of the DSIMS and I hope to continue my association with DSIMS in whatever manner possible

Memorable Events/ Journey in the Institution:

My journey at DSIMS all began with the Special Executive Program which was held to bridge the gap between under graduation and post-graduation basically being an ice breaker and for us to have the taste of how post-graduation is a complete different story.

The structure of PGDM as a course is more inclined towards learning the practical aspects along with the theory which helps the students to become corporate ready and so called budding managers. It encourages the students to look beyond theories and enable them to relate concepts to the real world and develop the power of creativity within themselves.

For me the best time at DSIMS were the extra-curricular activities, be it the annual domain conclaves, sports event, cultural event, working for the placement committee and I am emphasising on it as I was a part of almost all the events and I can actually relate that what all it has taught me, be it professionalism, discipline, working in teams, leading people, multitasking etc. It has changed me as a person personally as well as professionally.

All this was possible because of the never ending support and guidance of the faculties who could be approached even for every small thing and it could get solved for us. I could definitely say these were the best two years of my life and DSIMS has played a key role for me to transform myself and to become corporate ready and be able to face the challenges.

Memorable Events/ Journey in the Institution:

The two years in DSIMS passed by swiftly immersing the students with knowledge, patience and on top of all management abilities necessary to compete in the real world of business. DSIMS was a platform to push myself and understand the potentials that was hidden inside me.

Community activities, group assignments/tasks, mock interviews and Leader in Making development class etc., helped me personally to groom myself. It gave me an introduction to execute my abilities to the fullest. I will cherish all the memories at DSIMS throughout my life. But if I have to still pick one, then my most memorable event would be my Study Abroad Exchange Program at Ottawa University at USA. Here we learnt about Business values, Ethics and Servant Leadership. I believe it was a wonderful platform for us students to learn, experience culturally diverse people, environment and International Ethics. Apart from all this, working in Conclaves and Social activities played a vital role in my journey at DSIMS and I feel so grateful to contribute something little back to society through DSIMS. Professors, Faculty members and Staff, everyone created a very healthy environment for us to become competent and confident. The facilities provided to us like the well-equipped library, computer- lab, guest sessions and training programme organised by DSIMS were really a boon to students. This has inculcated a lot of interpersonal skills which is one of my key learning by being a part of the DSIMS family.

Memorable Events/ Journey in the Institution:

12 years ago was the first day I had joined MBIS and the memories are still very vivid. I remember my first day, I had moved from the UAE and this was my first time in any school in India. I was pretty skeptical if I would fit into the school and their methods. None the less, the school and their teachers made sure I was comfortable and wasn't affected by the transition as they made it seamless. Being a student of the first batch of the school is something very special I hold and helped me get along amicably. Over the years, my time at MBIS helped me realize my keen interests and gave us the liberty to pursue the subjects we like. Early on in my educational years I got the opportunity to study the subjects I preferred which was something uncommon with schools back then but that helped a lot in the long run.

Today, I've graduated from NMIMS Mumbai with a degree in B.Sc. Finance and am pursuing CFA in the coming years. For this I would like to thank MBIS, for making it possible. This journey was amazing and will always be something I cherish and am grateful for.

Our Gratitude to the Large Donors of Rajasthani Sammelan Education Trust

Rajasthani Sammelan Education Trust today is a reputed name in the field of education with multiple educational institutions offering education from Nursery to post graduate studies in management and media studies. **Approximately 16,000 students** study across various schools and colleges located in the state-of-the-art RSET campus in Malad (Mumbai).

This transformation and growth of RSET has been brought about by some of the visionaries who were associated with the Trust since 1948 and had the far sightedness to empower the community through education. What started as a single school for the girl child way back in 1950's today has metamorphosed to multiple educational institutions and students.

RSET owes its gratitude to the benevolence of its **Large Donor families** who had the vision to invest for the cause of education way back in the early years and have continued to do it over the years, knowing fully well that **investment in knowledge pays the best interest**. And rightly so. From time to time all our **Large Donor families** who have been associated with RSET have seen their investment in education come to fruition and we are reaping the fruits of their vision through the various institutes and the infrastructural facilities that have been built at RSET some of which have been named as per the desire of our esteemed Donors and membership as per RSET rules were given as per the membership rules prevailing at that time.

All our Donor Trustees, Office Bearers and Managing Committee Members bring with them an extensive experience and knowledge of running their successful enterprises. It is largely due to their efforts, vision and commitment that RSET has grown in the size and stature. Our gratitude to all our Members for joining with us in our educational endeavours.

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
